

Summer Internship in Korea

Summer Internship Student Reviews

Danielle

(Sophomore,
Early Childhood
Education)

Having the opportunity to intern as an English teacher this summer felt like a dream come true. The students and staff were extremely kind and put forth immense amounts of efforts to make sure that all of the interns had a successful time. I will always treasure this experience.

Sarah

(Sophomore,
Communication
Sciences and
Disorders)

This internship was one of the greatest experiences of my life. I not only engaged with the Korean culture, but I, most importantly, collaborated, bonded, and connected with my students.

Teagan

(Junior,
Linguistics)

If I could go back and do it all again, I would do this internship once more in a heartbeat. The students made the heat, humidity, jet-lag, distance, and homesickness all worth it; I think I learned more from them about the world than I ever have in any classroom.

Kevin

(Sophomore,
Double Bass
Performance)

Meeting all of the high school students in Korea and becoming their teacher and friend gave me many amazing and fun stories to tell! The internship gave me more experience with Korean as well as with teaching to and working with students from another part of the world.

Sydney

(Senior,
Women's Studies)

Going on the Korean internship this summer was an amazing opportunity. Not only was I able to meet and get close with a lot of the students I taught, but I was also able to expand my cultural horizons during my time on the trip.

The application for the Summer 2018 internship will be available in the Spring 2018 semester.
